Summary

Content

Highlights

- UNJLC released a brand new Supply Corridor map which outlines the major supply corridors for all of Sudan.
- Several newspapers published conflicting reports on new rules for importing used vehicles into Sudan. UNJLC is in the process of confirming the official rules affecting humanitarian agencies and what new processes are in place.
- UNJLC published four new snapshots detailing procedures for importing, registering and obtaining tax exemption certificates for communication equipment brought into Southern Sudan.
- A new list of suppliers of “other” products (e.g., construction materials and medical equipment) was released by UNJLC in September.
