ETHIOPIA

NDRMC – Logistics Cluster Coordination Meeting

09 June, 2020
AGENDA

- Welcome and Introductions
- Information Gathering
- Aviation Updates
- SOPS - Guidance
- Logistic Challenges
- Concept of Operations
- Partner Forum, FAQs and Knowledge sharing
INTRODUCTIONS

NDRMC

Ato Tadesse Bekele
Senior DRM Adviser
National Disaster Risk Management Committee (NDRMC)
tadesse19bekele@gmail.com

Ato Ayderus Hassen
Logistics operation directorate Director
National Disaster Risk Management Committee (NDRMC)
ayduhasen@gmail.com

Ato Tewodros Demissie
Transport and Port Operation Team
National Disaster Risk Management Committee (NDRMC)
tedydem@yahoo.com

Logistics Cluster

Adham Effendi
Acting Logistics Cluster Coordinator
adham.effendi@wfp.org

Anne-Maud Drugeon
Logistics Cluster Deputy Coordinator
annemaud.drugeon@wfp.org

Andrea ROSALES
Logistics Officer (ECC Liaison)
andrea.rosales@wfp.org

Yoseph Ambaw
Operations Assistant
yoseph.ambaw@wfp.org

Robin Andrew
Information Manager Officer
robin.andrew@wfp.org

Sara Berhanu
Information Manager Assistant
sara.berhanu@wfp.org

Quarantine measures are in place entering the Tigray region, authorities are escorting deliveries for restricted single-day drop-offs. Checkpoints due to customs checks.

The main road between Gondar and Addis Ababa has occasional congestion at Gedeche. Checkpoints due to customs checks.

**Road Constraints Map as of 4 June 2020**

---

**When did the constraint occur?**

01/06/2020 17:57

**Is there an estimated ending (optional)?**

date/year

---

PARTNER REPORTS

LOGISTICS CHALLENGES AND NEEDS

• Transport: Impact, Journey Leg, Cargo Movement (SQM/MT) and Cold Chain requirement.

• Storage: Impact, CMB/SQM and Cold Chain requirement.

• We need your six month upstream Supply chain visibility, to understand future demands and pressures.
AVIATION - UPDATES
Ethiopian Airlines

• **Flights to Juba (JUB)** will resume as of 1st June; flight times are in table below.
• **Flights to Tanzania** will resume as of 1st June; Dar Es Salaam will be daily,
  • while Kilimanjaro & Zanzibar will be 3x a week

The table is from May 28th, 2020. Please note that flights can be cancelled at short notice due to low load factors; changes are fluid and will also depend on the lifting/extension of current restrictions.
All flights not included in the table are still suspended.

Turkish Airlines

• IST-ADD and ADD-IST flight suspensions are extended up until 10th June

Lufthansa

• Route Network from 1st – 14th June

* Source: Safeway Travel and Tours
CARGO

https://emergency.servicemarketplace.wfp.org/

- Cargo Requests through the emergency service market place.
- Some light cargo may also be accepted on WFP Aviation passenger flights subject to available space on the aircraft.

SOPS - GUIDANCE
TRUCK PROCEDURES FOR COVID-19

Warehouse guidance

• The number of personnel in the warehouse should be maintained at the minimum level possible.

• Loader/porter groups to be reduced to a maximum of 15 persons

• Proper sensitization and planning with all warehouse parties/stakeholders

• The requirement for surge capacity labour is predictable and must be prepared for in advance. The procedure for minimizing risk is as follows:

  • **AT MAIN GATES TO THE WAREHOUSES** the security guard wearing a face mask measures temperature.

  • All main entrances to the warehouse to have hand washing facilities with clean water, soap or wash solution of 0.05% bleach solution.

  • Hand washing and disinfect is mandatory for all personnel before accessing the warehouse including truck drivers and driver assistant.

  • For drivers including truck drivers and passengers/turnboy shall disembark the vehicle, wash hands, sanitize and their temperatures taken by security guards.

  • Registration of loaders to be always carried out by themselves at a designated place, a distance from the guard’s house to avoid congestion at the gate and a social distancing maintained.
GOVERNMENT MITIGATION MEASURES

Objective

• To improve the awareness of the Heavy truck drives regarding potential risk of COVID infection
• To improve use of PPE (Face cover) Utilization and IPC measures within the vehicle
• To standardize the IPC management protocol at the cross borders in regulating and managing the Heavy truck drivers

SOPs for border-crossing and border posts recommended guidance

• All drivers and their crew at border crossings must undergo health screening. In instances where such people exhibit symptoms, they should be immediately isolated and referred to designated isolation/treatment centre.
• Conduct expedited Exit and Entry screening of drivers, their crews and vehicles carrying essential cargo at Points of Entry.
• Where drivers and their crew do not show any symptoms after screening, they should perform hand hygiene and be allowed to proceed to deliver the goods and should be subjected to entry screening into the next country or region; and on their return trip to their place of domicile or next loading point.
• Provide hygiene and hand washing facilities at each transport hub.
• Long truck vehicles must not carry more than two (2) crews per vehicle
• The driver will be quarantined at the designated quarantine sites at their final destination and will not be allowed to socialize and are expected to the stay in the quarantine for 14 days or until they move for another mission.
• Designate stopping points for truck drivers (food, hotels) with infection prevention
• Tran and deploy more sanitation and hygiene personnel at borders
• Establish technical cooperation and harmonized cross-border procedures with neighboring countries – regulate through permits of essential movements
• Strengthen COVID-19 response at border towns and on main transport corridors – establish and strengthen quarantine centers at border towns and PCR testing capacity including Semera, Jijiga, Harar, Dire Dawa, Moyale.
• Develop specific plans for alternate routes when forced to close major highways for woaredas and regions
LOGISTIC UPDATES AND CHALLENGES
LOGISTICS CHALLENGES AND NEEDS
LOGISTICS CHALLENGES AND NEEDS

• 11 Reports submitted.
• 6 reports for storage.
• 1 showing critical impact on operations with a need for cold chain and rehabilitation work.
• 5 showing “increasing Impact” on operations, with 4 of the 5 assessed as being poor, lowest score, to meet operational needs.
• 5 for Transport showing “increasing impact” on operations. 2 assessed as poor to meet operational needs.
• 8 of the reports requested air transportation at this location.
• 1 partner reported the need of cold-chain at country level.
• Partners continue to report storage concerns.
