PAKISTAN Flood Response Snapshot

Logistics Cluster Warehouses – Multan

Since August 2010, the Logistics Cluster has been providing professionally managed common storage facilities in Multan to facilitate a coordinated flood relief effort. This snapshot provides a description of the storage facilities set up by the Logistics Cluster in Multan. Currently 11,581 m² of storage capacity is provided and seven organizations have used the facilities to date.

Unit #16 - TNT Warehouse Multan
This warehouse (contracted from TNT – An LET partner) is a concrete storage structure with an internal capacity of 891 m² for sensitive/high-value non-food items. This warehouse also includes an estimated 10,000m² open area for storage of heavy/voluminous Non-Food Items.

Outside the TNT warehouse in Multan
The open area outside the warehouse also offers parking space for trucks. The warehouse operates six days a week (Monday – Friday 9:00 am – 6:00 pm and Saturday from 9:00 am -1 1:00 pm). A standby crew is on call outside these hours to deal with emergency requirements.

Unit #17
Unit #17 includes two temporary warehouses (Mobile Storage Units) of total 640 m² for both food and non-food items, as well as two cool storage containers of a total of 50 m² for temperature-sensitive items.

Storage Requests should be made at least 24 hours in advance using the Temporary Storage Request (TSR) form. This form is available on the Logistics Cluster website at: http://www.logcluster.org/ops/pak09a/temporary-storage-request.

Full information on commodity and weight/volume is required to allocate appropriate storage.

Requests for support from the Logistics Cluster in Multan should be sent to the following address: Pakistan.Cargo@logcluster.org. This will facilitate tracking of requests and data-processing. The Logistics Cluster provides storage and handling services without charge to the users. All commodity handling is carried out by in-house labour and/or appropriate handling equipment. Should users have specific commodity handling requirements, these should be discussed with the Logistics Cluster prior to engaging services.

Release of Commodities: Commodities should be released the day before the desired removal from Logistics Cluster facilities by completing the Release Order form (RLO). This is also on the Logistics Cluster website in the ‘more key documents’ section. This ensures that appropriate and sufficient labour is available to meet the requirements of the user.

For further information please refer to the Pakistan Logistics Cluster web page: http://www.logcluster.org/ops/pak09a
