LOGISTICS CLUSTER – MEETING MINUTES
TYFHOONS - EMERGENCY RESPONSE
WFP Office, Manila
Date: December 15, 11:00

1. **Introduction and Situation update by Logistics Cluster**
   - Logistics Cluster transport operations have now concluded
   - Logistics Cluster staff are currently working to close the project by 31 December

2. **Customs**
   - No customs clearance services are currently offered by the Logistics Cluster
   - It was noted that in general, customs clearance is anticipated to become more difficult for organisations after 20 December due to the upcoming Christmas break

3. **C/M Coord**
   - As Logistics Cluster transport operations have concluded, C/M coordination is no longer in place to assist with deliveries.

4. **Air operations**
   - Following the conclusion of Logistics Cluster air operations on 30 November, the two helicopters were successfully transported out of Philippines on 11 December
   - Since operations began on October 15, two MI-171s have flown 389 rotations (250.17 hours) carrying 2,394 passengers and 410 mt of food and of non-food items for the Logistics Cluster.

5. **Surface Transport**
   - Surface transport concluded 12 December with the final distribution of UNFPA Health Kits
   - Since operations began on 9 October, Logistics Cluster surface transport operations have completed 152 trips for Logistics Cluster members including DSWD, WFP, UNICEF, UNFPA and UNHAS.

6. **Warehousing**
   - Two mobile storage hubs in Laoag and Wallace Airbase now dismantled and transported to NROC.
   - The mobile storage hub in Baguio is currently being emptied but will continue to support DSWD’s surface transport operations until it is dismantled in coming weeks.

7. **GIS**
   - All Logistics Cluster maps continue to be available up to A0 size through the WFP office in Manila. As always, maps can also be downloaded from the Logistics Cluster website at [www.logcluster.org/phl09a](http://www.logcluster.org/phl09a).

8. **Generators**
   - Together with WHO, the Logistics Cluster is providing generators to three hospitals; Pasig General Hospital, Amang Rodriguez General Hospital and Region I Medical Centre in Dagupan.
   - 110kva/50Hz FG Wilson generators for Region I Medical Centre and Amang Rodriguez hospital have successfully been converted from 50Hz to 60Hz and are currently being transported to their respective hospitals. The conversion of the unit at Pasig General Hospital is on-going.
A request has been received for the inspection and possible repair of the existing 450kva CAT generator of Region 1 Medical Center which was damaged by the recent flooding caused by typhoon Parma (Pepeng).

9. **Update from Organizations**

**WHO:** Expecting a shipment of 15 medical refrigerators on 8 January 2010 for use in Mindanao. WHO will discuss with WFP regarding receiving delivery through Port of Cotabato (Polloc) to avoid trans-shipment through Manila.

**OXFAM:** Currently working on the provision of water kits from UNICEF. Hoping to complete distributions in Laguna and Rizal by the end of December but may be extended as coordination between OXFAM and UNICEF regarding 22 mt of soap has been delayed due to exiting staff. OXFAM WASH operations are scheduled to operate in Laguna and Rizal until end March 2010.

10. **Way Forward**

- The next Logistics Cluster meeting will be in January 2010

**Next meeting: WEDNESDAY January 13 10.00 am at the WFP Office**
