**Work with Infrastructure sector to improve logistics information available**

**Information to be provided to INGC and Cluster members from cluster**

**Action Point:** Members to fill out road info format and share with Cluster

6. The Logistics Cluster has liaised with the infrastructure sector and has prepared a road assessment format, which can help improve info on roads affected by flood. The format is annexed in English and Portuguese.

7. While the format can be easily be used together with GPS systems, the user will have to provide the GPS report together with the format. The format can easily be used without GPS.

8. Everybody (also provincial level) to fill in format and send to Logistics Cluster team who will compile and share with everyone

**Feedback on meeting with OCHA gender expert, Caroline Blay**

**Action Point:** Invite Caroline B. To do a briefing on how to include gender in the contracting of logistics services

9. **Main recommendation from Caroline:**
   - Only introduce gender if valuable to the objectives of the programme/activity

10. **Ways to incorporate gender into emergency logistics:**
    - Planning of distribution points (equal access?)
    - Contracting of service providers (e.g. Sexual Exploitation and Abuse Policy)

11. **Way forward**
    - Invite Caroline Blay to do a briefing on how to include gender in the contracting of logistics services. This will most likely be in April 2011 after the emergency season.

**Logistics Cluster Contacts:**

**Logistics Cluster Focal Point.** (Dorte Friis, Dorte.friis@wfp.org, 82 96 38 718)

**Logistics Cluster Assistant.** (Domingos Monjane, Domingos.Monjane@wfp.org, 84 55 75 530)
