5. OTHER

HIGHLIGHTS

- The sourcing of funds for the Logistics Cluster primary and secondary transportation of relief items into and within Quelimane is still ongoing. Logistics Cluster partners have reported from the COE “Centro Operativo de Emergencia”, (the provincial operational centre for emergency meetings in Quelimane) that relief items remain stationary due to transport funding constraints. Some partners also reported some relief items to be held up in Maputo.

LOGISTICS COORDINATION

- The Logistics Cluster continues to coordinate with the government’s INGC Central and provincial COE.
- The Logistics Cluster’s temporary warehousing services are still available in Quelimane for all Logistics Cluster Members.

INFRASTRUCTURE

- Despite the recent rainfall from Cyclone Irina, no recent infrastructural constraints have been reported.

CURRENT DELIVERIES OF RELIEF ITEMS

- UNFPA has sent 1,000 Dignity Kits to the Logistics Cluster warehouse in Quelimane and is currently developing distribution plans.
- IRD/PSI, in cooperation with the WASH Cluster, is planning to distribute 800 boxes of certeza, currently stored in the Logistics Cluster warehouse in Quelimane.

OTHER

- For further correspondence please e-mail Mozambique.LogisticsCluster@wfp.org
