1. Welcome

2. Minutes 10th February for approval
   • Approved.

3. Follow up of Action Points
   • The inventory of vehicles left in the Vanni will be taken forward by OCHA at the appropriate time. Agencies involved will be informed.
   • A new overview of transport rates compiled based on a WFP commercial transport tender is shared in hard copy.
   • A military escort is still mandatory for travel from Omanthai to Jaffna via the A9. Humanitarian vehicles are obliged to travel with the convoy which leaves Omanthai at 08:30. Major delays have been experienced with these convoys. For travel from Jaffna to Omanthai, no escort or convoy is needed.

4. Update Logistics Infrastructure resettlement areas
   • WFP continues to operate Inter Agency logistics bases in Kilinochchi and Mallavi. When appropriate, a third base will be set up in Oddusudan/Mullivayulai.
   • A location had been found for an Inter Agency Logistics Base in Kilinochchi separate from the current compound as warehousing space cannot be expanded there. This location, however, became unavailable. A new location is being sought in cooperation with the GA.
   • Cabling and fencing at the Kilinochchi Inter Agency compound will start shortly. Ablution units and office/accommodation containers have been placed.

5. Update Procedures/Checkpoints
   • Military escort/convoy already discussed.
   • NGOs continue to experience disparities in accessing the resettlement areas.

6. Continuation Logistics Cluster
   • As the Logistics Cluster Coordinator has left the country and the Information Management Officer is leaving next week, no more Inter Agency Logistics Meetings will be scheduled. Participants indicate they find it important to have a discussion and information sharing forum on logistics. In case an issue comes up, meetings can be called via the WFP SO Logistics Officer, Mads Vejlstrup (mads.vejlstrup@wfp.org). Relevant information will also be shared via the OCHA mailing lists.
   • Common transport and storage services will continue to run as before under the WFP Special Operation.
   • The Sri Lanka Logs mailing list will remain active for participants to share logistics related information.

7. AOB
   • Note on the Helitours flights to Jaffna: on occasion passengers are put on army flights.
