“Excellent balance between sessions including the market place and the general meeting.”

“Very well balanced meeting, a natural flow and very good level of content.”

“Obviously the meeting is excellent for networking, sharing ideas and for collecting operational information.”

“The size of the group was good, possibility to improve the representation of some partners, especially for local actors.”

“Having the SAG now in place is an important achievement.”

---

IDEAS FOR THE NEXT MEETING

The progress of SAG implementation and focus on implementing the strategy at a practical level.

Interaction with other Clusters.

Local partners capacity building and partnerships with local NGOs.

Identifying and developing donor interests to move forward with the preparedness platform and other pilot projects.

Involvement of organisations logistics departments when planning and implementing projects.

Market place session and updates from the working groups.

How to make Governments ready for disaster.
