**Steps**

1. **Pre-landing Requirements at Point of Departure**
   - All existing requirements of the Department of Customs and Border Protection.
   - Customs and Border Protection must apply the general administrative procedures regarding the processing of all inbound cargos identified as human specimens.

2. **Inbound Cargo Restrictions**
   - Inbound cargo may not include human specimens.
   - The Department of Customs will coordinate with the Department of Health and Human Services (DHHS) for any designated human specimens.

3. **Arrival Requirements**
   - All existing requirements of the Department of Customs and Border Protection.
   - Customs and Border Protection must apply the general administrative procedures regarding the processing of all inbound cargos identified as human specimens.

4. **Post-arrival Measures for Inbound Cargos**
   - All existing requirements of the Department of Customs and Border Protection.
   - Customs and Border Protection will apply the general administrative procedures regarding the processing of all inbound cargos identified as human specimens.
