CENTRAL AFRICAN REPUBLIC
AIR CARGO TRANSPORT SERVICE
JANUARY - MAY 2020

Poor roads and infrastructure make transportation across the country slow, difficult, and sometimes impossible, isolating communities in need of assistance. In case of emergency, the Logistics Cluster facilitates access to an air transport service of last resort, free to the user and open to the entire humanitarian community in the Central African Republic. The priority zones and type of cargo that can be transported are defined by the Humanitarian Country Team and the Inter-Cluster Coordination Team.
