

Background

In an effort to have an overview of the impact of COVID-19 on Humanitarian Supply Chains in the world, the Logistics Cluster is compiling updates on entry point for cargo. The table below reflects updates received from other organisations and the private sector. As per the Logistics Cluster mandate, the information gathered focuses only on cargo transport, not passengers' restrictions. Also note that this list is not exhaustive and will be updated based on the information received on a day-to-day basis.

Should your organisation be able to provide verified information on cargo entry points, kindly send it to covid-19@logcluster.org (including the source) before 16:00 every day.

To access the CEPU map click [here](#).

Overview

Country	Date of Information	Source	Comments
Afghanistan	19-Jun	WFP ; Pakistani government ; OCHA	All borders are open and operational. Congestion at Torkham and Chanam border crossing points. The flow of trucks is approx. 125 from either side per day.
Algeria	3-Aug	WFP ; Agility ; North P&I ; Bolllore Logistics ; Wilhelmsen ; DP World	All commercial borders are still open to cargo movements, but operating at reduced capacity, delays to be expected. Ports operating at limited capacities with moderate container shortages. Ships will be subjected to health checks and may be subjected to quarantine time. Crew changes are not allowed except for Algerian nationals. Curfew hours imposed reduce work hours in harbours and road transport hours. Air freight operating at minimum capacity.
