1. Cluster Activities and Information Gathering

- Cluster Coordination Meetings are scheduled weekly: Every **Tuesday 11 AM EAT**. The last meeting had engagement from 14 partners.
- The revised Physical Road Constraints map has been shared, with reports from partners and WFP logistics focal points. The map is updated weekly and is dependent on timely submissions through the [Ethiopia - Road Constraints Report](https://logcluster.org/ops/eth20a) to improve its accuracy.

- To further evidence the case for funding, work is ongoing to present the Challenges and Needs data effectively. It is critical and beneficial to the operational funding of the Logistics Cluster that partners continue to report their [challenges and needs](https://logcluster.org/ops/eth20a) in order to keep the data as timely, relevant and detailed as possible.
2. Operational Support and Requests Received

- The Logistics Cluster has completed the installation of four Mobile Storage Units (MSUs) for the Ministry of Transport (MoT) at the border regions of Djibouti, Dewele and Galafi, to help establish COVID-19 screening centres and waiting areas for truck drivers.

- The joint multi-sectoral assessment through the Emergency Coordination Centre (ECC), and facilitated by the Logistics Cluster, has taken place between the period 15 – 18 June. The assessment set out to determine the preparedness status of six locations to assess the gaps and needs to support the COVID-19 response, with itineraries including Jijiga-Togwojale, Dire Dawa-Dewale, Galafi, Gendewha-Metema, and Gambella-Pagak.

  The findings are being finalised to be presented back to the ECC on Monday 22 June.

- Requests received; Requests are being facilitated according to priority and where funding allows:
  - WHO/EOC: engineering, transport, prefabricated warehouse management training services
  - IOM: mobile storage units
  - OCHA/WHO: COVID-19 screening centres
  - Ministry of Transport: COVID-19 screening centres and waiting areas
  - Shelter Cluster: urgent need for MSUs in Dewelle, Somali region, and Metema, Amhara Region.

3. Logistics Challenges and Updates

- The Tigray regional government has lifted movement restrictions within the region, and relaxed the double quarantine requirement imposed on air travellers. Travellers who have already quarantined in Addis Ababa will not have to quarantine again when entering the region within a day period. Tigray region has also exempted short missions by humanitarian organisations from quarantine restrictions.

- All regions in the country have now eased COVID-19 movement restrictions in the country to remove bottlenecks for humanitarian assistance and movement.
## Situation Update, 22 June 2020
Addis Ababa, Ethiopia
