LOCATION: Dahuk, Iraq – French Red Cross Office

DATE: 30 November 2016

CHAIR: Logistics Cluster

PARTICIPANTS: French Red Cross (FRC), International Medical Corps (IMC), International Rescue Committee (IRC), Islamic Relief Worldwide (IRW), Malteser International, Medair, Medicos del Mundo, Mission East, Norwegian Refugee Council (NRC), REACH, Save the Children, Welthungerhilfe (WHH).

ACTION POINTS

- The Logistics Cluster to follow up with service providers to clarify the clearance process for the checkpoint entering Dahuk – still ongoing.
- The Logistics Cluster to recirculate the guidance note on moving goods from Kurdistan Region of Iraq (KRI) to Baghdad.
- The Logistics Cluster to follow up on Sahela Checkpoint Clearance Process with the Governor’s office, while also coordinating with BRHA.
- Participants to share any suggestions they have regarding topics to be discussed during next Logistics Cluster meetings.

AGENDA

1. Humanitarian and Operational Updates - Mosul operation
2. Logistics common services update
3. A.O.B.

1. Humanitarian and Operational Updates – Mosul Operation

- The Chair presented the latest information regarding the Mosul operation and humanitarian response. Current displacement has reached over 73,908 people, according to IOM. All information is available on the Displacement Tracking Matrix (DTM) portal: http://iraqdtm.iom.int/

- It was reminded that Zone 2 has not received a substantial number of Internally Displace Persons (IDPs) and more preparedness is requested by Dahuk authorities in case of an influx. A lack of coordination with BRHA and clusters has been highlighted and efforts are expected from the humanitarian community to streamline the response and its effectiveness/consistency.

- As per the Camp Coordination and Camp Management (CCCM) site planning infographic shared with participants:
  - Qaymawa (formerly Zelikan) camp is full;
  - Amala Camp is ready to receive;
  - Kaherta has been defined as a unique Reception Centre;
  - Nargizlia 1 Camp is at 75% capacity;
  - Nargizlia 2 is under construction (30% completed);
  - Zelikan Camp is planned.
• A pontoon bridge has been installed by the coalition and is fully operational to cross into Qayyarah (next to the main damaged one).

2. Logistics Common Services Update

Storage

• Two Mobile Storage Units (MSUs) for common storage have been erected this week in the Hajj Ali emergency site.
• Dahuk/Batel, Bardarash and Owainat are ready to receive goods (free-to-user storage for Zone 2).
• Warehouse Assessments are currently being carried out to scale up in Dahuk and Zummar.
• Organizations’ storage plans inside and outside camps need to be streamlined with the camps’ distribution model to coordinate with the CCCM Cluster.
• 28 additional MSUs have arrived in country and are prepositioned in Dahuk and Erbil and will be dispatched according to priority areas and needs.
• Owainat and Bardarash are operational and ready to receive – Owainat is full so organisations are advised to send Service Requests Forms (SRFs) in advance or share their storage gaps in order to plan accordingly.
• As of today, the Logistics Cluster storage capacity at each hub is as follows:
  o Baghdad: 2,000 m²
  o Bardarash: 1,200 m²
  o Dahuk/Batel: 2,773 m²
  o Erbil: 5,400 m³
  o Hajj Ali: 640 m²
  o Jed’ah camp: 320 m²
  o Khaser camp/Hasanshan: 640 m³ (additional 1,280 m² planned)
  o Owainat/Zummar: 640 m²
  o Qayyarah Airstrip camp: 640 m² (additional 640 m² planned)
  o Tikrit: 2,400 m²

• The latest version of the Mosul ConOps map is available on the Logistics Cluster website at the following link: www.logcluster.org/map/concept-operations-map-02-november-2016. A new map will be issued in the coming week.
• All common storage facilities can be accessed by humanitarian organisations on a free to user basis. The SOPs for warehousing have been reviewed and are available on the Logistics Cluster website at the following link: www.logcluster.org/document/sops-standard-operating-procedures-warehousing-mosul-update-01-november-2016
• Participants were encouraged to send their updated storage capacity to the Logistics Cluster to update the map with the storage capacity of partners at a country level. An updated version was presented from latest data sent in October and is available on the Logistics Cluster website at the following link: www.logcluster.org/map/humanitarian-community-storage-capacity-november-2016

www.logcluster.org
Custom

- On 10 November, the Logistics Cluster hosted a workshop together with the Joint Crisis Coordination Centre (JCC), Ministry of Finance, Ministry of Health, and Department of Foreign Relations to present to the humanitarian community the establishment of a **One Stop Shop (OSS)** that will facilitate custom clearances in the Kurdistan Region of Iraq (KRI). The workshop also aimed to identify the intended working modality of the OSS and the services it could offer within the existing regulation system.

- A roundtable discussion was held on any bottlenecks/logistics gaps organisations are facing. The following issues were raised:
  - Two NGO advised that a checkpoint close to Dahuk is now requesting additional documentation for trucks carrying items into Dahuk; the Logistics Cluster will follow up with the organisations and OCHA Civ-Mil Coordination for more information.
  - Some NGOs have reported a blockage at Sahela checkpoint and requested to process the clearance in coordination with the mayor of Zummar – the Logistics Cluster will follow up with authorities and BRHA.

- **An MoU was signed between WFP and the JCC and the OSS is officially open as of 30 November.** The JCC will lead the OSS and the Logistics Cluster will support and facilitate coordination with humanitarian organisations.

- The Logistics Cluster will recirculate internal transport guidance to move goods from KRI to Baghdad.

3. AOB

- Participants were requested to share any suggestions they have regarding topics they would like discussed during the next Logistics Cluster meetings.

- The following documents are available for any interested organisation:
  - Multi-sectorial Assessment Report Fadliyah (6 November)
  - Report on Returns from Hamam Al Alil - Rise Foundation (6 November)
  - A rapid overview of Environmental and Health Risks Related to Chemical Hazards in the Mosul Humanitarian Response (4 November)
  - Rapid Assessment in Qayyarah/Jadah camp – REACH (3 November)
  - RPA Emergency Report Hajj Ali – Protection Cluster (9 November)
  - Rapid Needs Assessment Fadliyah – ACTED (2 November)
  - Rapid Needs Assessment Zelikan camp – REACH (4 November)
  - UNHABIT Mosul city Profile (October)
