Customs

- The agreement between Joint Crisis Coordination Centre (JCC)/Ministry of Interior of KRI and WFP, on behalf of the Logistics Cluster, for the One Stop Shop (OSS) was officially signed on 29 November. The OSS is now open and has started processing requests from humanitarian organisations for clearances of incoming cargo.

- The OSS opens a new channel that will decrease the time for processing requests. In one case, the clearance time was reduced from 15 days to 2 days. Customs clearance requests can be brought directly to the OSS office, located within the JCC office in Erbil. Organisations can nonetheless continue to follow the usual process.

- The Logistics Cluster is providing guidance to organisations on how to use the OSS services and detailed SOPs will be circulated soon.

Storage

- The storage space in Hajj Ali is now operational with a capacity of 640 m². Common storage will be expanded in Khazer camp by 1,280 m² and at the Qayyarah Airstrip by 640 m² as per needs identified. The Logistics Cluster conducted site visits to the existing common storage facilities at Khazer and Qayyarah Airstrip camps (see pictures below) to meet with the cooperating partners (BCF and Mercy Hands respectively), discuss on the warehouse management and identify suitable locations for the additional MSUs to be installed.

- The facilities in Owainat and Bardarash are operational and ready to receive – Owainat warehouse is at full capacity; organisations are advised to send Service Request Forms (SRFs) in advance or share their storage gaps to plan accordingly.

- The Logistics Cluster is identifying land in Zummar for the possible setup of a common storage space, in response to the requests of organisations. The Logistics Cluster is discussing with a potential implementing partner on the management of the facility. Warehouse assessments are also currently being carried out in order to scale up the storage capacity in Dahuk.

- The Logistics Cluster is working with the NFI/Shelter Cluster to align the storage plans for Nargizlia 1 and 2, Amala and the new Zelikan camp.

- The latest Humanitarian Community Storage Capacity map has been posted online and is available on the Logistics Cluster website at the following link:

  www.logcluster.org
www.logcluster.org/map/humanitarian-community-storage-capacity-november-2016

- Organisations that have altered their capacity should inform the Logistics Cluster in order to update the map.

- A revised ConOps map has been published and is available on the Logistics Cluster website at the following link: www.logcluster.org/map/concept-operations-map-05-december-2016

- The Logistics Cluster storage capacity currently stands at:
  - Erbil: 5,400 m²
  - Dahuk/Batel: 2,773 m²
  - Baghdad: 2,000 m²
  - Tikrit: 2,400 m²
  - Bardarash: 1,200 m²
  - Owinat/Zummar: 640 m²
  - Khaser camp/Hasanshan: 640 m² (*additional 1,280 m² planned*)
  - Jed’ah camp: 320 m²
  - Qayyarah Airstrip camp: 1,280 m²
  - Hajj Ali: 640 m²
  - Debaga: 640 m² *planned*

- As of 1 December, a total of 7,017 m³ of NFIs, equivalent to 1,250 mt, has been handled on behalf of 17 humanitarian organisations.

Other operational updates

- The Logistics Cluster is liaising with UNOPS on establishing a procurement working group that will build a database/mapping of suppliers in across the whole of Iraq.

- Funding for the Qayyarah Bridge project is yet to be secured. The Logistics Cluster drafted a funding proposal to be included in the Iraq CERF allocation. Confirmation of the funds availability is expected in the next weeks.

- The Logistics Cluster is working in close collaboration with the EU Civil Protection Team, OCHA and other organisations to coordinate the arrival in country of in-kind donations from EU Member States; these include shelter and non-food items, WASH and health equipment in support of the Mosul humanitarian
response. The Logistics Cluster, through WFP, is arranging for customs clearance, receipt, storage, and dispatch of items to recipient organisations.

- The Logistics Cluster continues to support the Ministry of Migration and Displacement (MoDM) with the transport of family tents to Qayyarah Airstrip. A total of 1,600 family tents have been transported on behalf of MoDM to date.
