NGERIA

2019 OVERVIEW

COORDINATION
To address common logistics gaps, consolidate requests, and link national and international humanitarian responders, the Logistics Sector holds regular coordination meetings in Maiduguri. Throughout 2019, 20 coordination meetings were held, attended by 41 organisations.

INFORMATION MANAGEMENT
Collect, verify, analyse, share. This year, the Logistics Sector supported operational decision-making of the humanitarian logistics response in northeast Nigeria by facilitating access to IM and GIS tools and products. In total 95 IM updates were published and shared with the humanitarian community.

COMMON SERVICES
Where logistics gaps and bottlenecks existed, the Logistics Sector supported with facilitation of critical logistics services including common storage across 6 field locations, and air cargo consolidation.

TRAINING
To build operational expertise, promote collaboration, and strengthen the logistics capacity of organisations involved in the northeast Nigeria response, the Logistics Sector support capacity strengthening initiatives. In 2019, the sector has trained 270 participants across 18 trainings.
