PREPAREDNESS 2019 GLOBAL OVERVIEW

Investing in preparedness saves time, lives and money. Recent studies on emergencies show logistics preparedness investments can save seven euros or more per euro invested, during an emergency response. Preparedness isn’t one action, event or workshop - it’s ongoing. The Logistics Cluster seeks to promote a sustainable approach to preparedness. Using its experience and wide partner network the cluster supports locally-led actions, which place those on the ground at the centre of humanitarian logistics response efforts.

FIELD-BASED WORKSHOPS & TRAININGS

- **19** NATIONAL-LEVEL EVENTS
- **17** LOCATIONS
- **676** PARTICIPANTS

GLOBAL-LEVEL PARTNERSHIPS

- **1** GLOBAL WORKSHOP
- **1** REGIONAL WORKSHOP
