Receiving Flights</li><li>7. Operational Efficiencies</li><li>8. Review</li><li>9. AOB/Discussion</li></ol>

## 1 – 9. Overview and Meeting Presentation

---

- The meeting presentation, covering details on the agenda items presented (1-9), has been published at the following link: <https://logcluster.org/document/south-sudan-special-focus-coordination-meeting-presentation-online-30-june-2020>.

## 10. AOB/Discussion

---

- It was asked if transport plans could be published earlier than one week in advance in order to allow more time for organisations to plan their operations. The Logistics Cluster confirmed that the Weekly Transport Plan is published every Monday on the [website](#) in order to inform about the upcoming air, road, and river transport options and allow organisations to submit their expression of interest within

---

the deadlines indicated in the document. If organisations provide information in advance, the Logistics Cluster team can plan ahead and indicate potential departure dates bilaterally. Organisations interested in moving their cargo by air should contact [southsudan.clustercargo@wfp.org](mailto:southsudan.clustercargo@wfp.org). Organisations are encouraged to submit SRFs early and position their cargo at the relevant Logistics Cluster transit warehouse in advance for timely planning.

- The Logistics Cluster confirmed that during dry season, the airstrip in Lankien is accessible for a fixed-wing aircraft to deliver from Juba. However, during rainy season the airstrip condition worsens and an assessment mission might be necessary before the aircraft is dispatched from Juba.

**The next Logistics Cluster Coordination meeting is scheduled for 14 July at 12:00 and will be held online.**
