Meeting Minutes, 22 October 2019
Malakal, South Sudan

LOCATION
Malakal, IOM Humanitarian Hub

DATE
22 October 2019

CHAIR
Logistics Cluster

PARTICIPANTS
Action Africa Help International (AAH), Cordaid International, Danish Refugee Council (DRC), Hope Restoration South Sudan (HRSS), Humanitarian Development Consortium (HDC), International Medical Corps (IMC), International Organization for Migration (IOM), Medair, United Nations High Commissioner for Refugees (UNHCR), War Child Canada, World Vision International (WVI)

ACTION POINTS
- Logistics Cluster to share updates on barge departure dates as they become available
- Partners to remove expired cargo from the common storage

AGENDA
1. Logistics Cluster Operational Updates
2. AOB

1. Logistics Cluster Operational Updates

River Operations
- Due to delays in obtaining the necessary clearances, the Shoebill barge is currently in Bor awaiting departure. The Logistics Cluster will provide partners with updates on the expected departure date as they become available.
- Organisations wishing to transport cargo by river should express their interest via email to southsudan.clustercargo@wfp.org.

Storage
- Partners were reminded to check the expiry of fire extinguishers and ensure that there are always fire extinguishers available in good working order.
- Partners were also reminded to restack the timber stored along the road near the outdoor storage in order to allow sufficient space for trucks to be able to operate in the area.
- Partners were requested to remove any expired stock from the common storage areas.

2. AOB

- Construction of a new sanitation block at the Logistics Base is ongoing. Once completed, this will be available to workers who don’t have access to the Humanitarian Hub.
Partners were advised that six containers of the expected 21 from IOM have so far been received. Once the materials inside have been used, then the containers will be made available for the storage of construction materials currently sitting in the outdoor storage space.

Partners were advised that IOM is planning to renumber the IOM-managed storage spaces. More information on the new warehouse sequences will be provided in the next monthly report.

The Logistics Cluster will be arranging meetings with partners to discuss loading and offloading rates for 2020.

Casual workers have been requested to clear all grass around the warehouses and parking areas.

The next Logistics Cluster meeting will be held at the HMH Meeting Hall Malakal on 5 November at 8:45 am.
