LOCATION: Awerial, Mingkaman Humanitarian Hub, Lakes State
DATE: 04 September 2014
CHAIR: Joseph BAMBOROUGH, Logistics Cluster Focal Point (ACTED)

PARTICIPANTS: Agency for Technical Cooperation and Development (ACTED), Catholic Relief Service (CRS), Internews, International Rescue Committee (IRC)

ACTION POINTS:
- Investigate regulations and registration of daily workers at the local Chamber of Commerce;
- ACTED to follow up on transport costs through Logistics Cluster or organizations with frequent transport from Juba by 11 September.

AGENDA:
1. Update on logistics cluster activities at Juba level and nationally
2. Update on all agencies logistics activities and needs in Awerial
3. Wages for daily workers
4. AOB

1. Update on logistics cluster activities at Juba level and nationally

- Awerial Logistics Cluster meetings will take place every Thursday at 16:30 in the Mingkaman Humanitarian Hub DSTV Tent (behind ACTED office). All organizations operating in Mingkaman are encouraged to attend.
- Any organizations who would like to be added to the Logistics Cluster mailing list should contact the Logistics Cluster Focal Point Joseph Bamborough (joseph.bamborough@acted.org).

2. Update on all agencies logistics activities and needs in Awerial

- It has been reported that the local market remains unable to provide the commodities needed by the population and transport from Juba is slow and infrequent.
- Due to the poor supply route from Juba to Mingkaman, the humanitarian community is exploring options with the local market to find a solution which will better support their programmes.

3. Wages for daily workers

- In a meeting earlier this week all organizations shared the wages paid for daily workers.
- In addition, partners recommended to assess the average number of workers and number of days required to offload different sized trucks in order to help determine the wages for offloaders.

4. AOB

- Security: A carjacking was reported 60km south of Mingkaman on the road leading to Juba; this has affected transport requirements for security.
- Common Storage: Currently almost at full capacity; all organizations who have cargo exceeding 30 days storage will be charged for storage on a cost recovery basis.
- The next Awerial Logistics Cluster Coordination meeting will be held on 11 September at 16:30 in the Humanitarian Hub DSTV Tent.
