Monthly Operation Overview
July 2016

The Logistics Cluster is responsible for providing logistics coordination, Information Management; and, where there is a gap in logistics infrastructure, WFP, as the lead agency of the Logistics Cluster, acts as a ‘Provider of Last Resort’ by offering common logistics services to support the humanitarian community in their response operations.

**Highlights of the Operation**

- The onset of disputes in Juba in early July significantly impacted humanitarian operations both in Juba and throughout South Sudan. Despite constraints from insecurity and lack of Flight Safety Assurances (FSAs), in July, the Logistics Cluster facilitated the delivery of 200 mt of life saving cargo to 19 destinations on behalf of 19 organisations.

- With support from WFP Uganda Country Office and WFP HQ Service Provision, the following services were offered to the humanitarian community in South Sudan on a cost recovery basis: WFP Aviation offered the service to airlift cargo to Juba from Uganda and Kenya and WFP Uganda Country Office offered support for temporary storage in Tororo, Uganda.

- The Logistics Cluster shared through the Logistics Cluster mailing list maps of humanitarian organisations’ warehouses and NGO office locations in Juba. Organisations have been asked to submit coordinates so that Wau locations may be mapped as well.

- The Logistics Cluster erected two Mobile Storage Units (MSUs) in Wau with an additional one to be constructed (one at WFP Wau and two in the UNMISS base). The new common storage areas will be shared by IOM and Logistics Cluster, and will enhance the capacity for indoor and outdoor common storage for the different humanitarian organisations operating in Wau.

Key Constraints

- In early July, Logistics Cluster air operations were temporarily suspended due to insecurity and lack of FSAs. When operating, weather conditions also hindered air movement throughout the month, resulting in several cancelled flights.
- Physical access and road conditions continue to deteriorate throughout the country. The most recent Access Constraints map can be found at the following link: http://www.logcluster.org/map/south-sudan-access-constraints-map-22-july-2016

Cargo moved by air: 200 MT

19 Destinations reached: Akobo, Aweil, Bauw, Ganyiel, Jiech, Koch, Kodok, Lankien, Malakal, Menime, Nhialdiu, Nyal, Paloich, Pibor, Rubkona, Rumbek, Ulang, Waat, Wau

Organisations Assisted:

Information Products: 15 (maps, meeting minutes, operation overviews and situation updates)
