

Background

The Logistics Cluster facilitates the coordination of the logistics response in support of the humanitarian community. Furthermore, it provides information management products to improve the decision making of humanitarian organisations in South Sudan. Where logistics gaps are identified, WFP, as the lead agency of the Logistics Cluster, acts as a *Provider of Last Resort* by offering common logistics services to support the humanitarian community in their response operations.

Operational Highlights

- In February, the Logistics Cluster facilitated the transport of **665 mt** of humanitarian cargo by air, road and river to **62 destinations** on behalf of **43 organisations**.
- During the reporting month, the Logistics Cluster coordinated **two inter-agency convoys on behalf of two organisations**, transporting humanitarian supplies **along the Western Corridor and in multiple locations in Jonglei**.
- Through the **Beyond Responses in Bentiu and Wau**, the Logistics Cluster, in collaboration with the IOM Common Transport Services (CTS) project, facilitated the **delivery of 115 mt of life saving items by road to deep field locations**.
- In February 2020, the Logistics Cluster conducted **three trainings in Juba**. A total of **54 participants** took part in two **Airfield Focal Point trainings sessions** co-facilitated with the United Nations Humanitarian Air Service. An additional **47 participants** representing national non-governmental organisations attended **the Logistics Cluster Induction Training**.

February 2020*

Coordination & Information Management

- In February, **four coordination meetings** were held in Bentiu, Bor, and Juba to facilitate the coordination of the logistics response amongst humanitarian organisations. This included a Special Focus Coordination Meeting on road operations, aimed at identifying common gaps and sharing best practices. In total, **42 organisations participated in these meetings**.
- The Logistics Cluster published **18 information management products** on the operational website. **The Physical Access Constraints map** displaying physical access constraints was also updated weekly; the most recent version can be found [here](#).
