1. Operational Update

- Since the beginning of July, the Logistics Cluster Rumbek has facilitated the airlift of over 60 mt of assorted cargo to support humanitarian operations in various field locations.

- Organisations supported through airlifts included IRC, IOM, Polish Humanitarian Action, Oxfam, IBIS, UNICEF, World Relief (WR), Mercy Corps, Christian Mission for Development (CMD) and Universal Network for Knowledge and Empowerment Agency (UNKEA). The Logistics Cluster also supported Mercy Corps and World Relief with offloading of charter flights and one vehicle received via overland transport.

- Organisations were informed that most deliveries of Education and WASH supplies being stored in Rumbek had been completed. Items were primarily delivered to southern Unity and Wau through Logistics Cluster facilitated flights.

- Organisations were reminded that all cargo should be packaged properly; especially items like hygiene kits. For fuel, drums should be sealed well and checked carefully for leakage prior to the date of dispatch.

- Organisations were informed that due to the recent situation in Juba, air operations in Rumbek were impacted. This was largely a result of the delayed issuance of Flight Safety Assurances (FSAs). As of 22 July FSAs have been issued and air operations will recommence.

- The Logistics Cluster also informed organisations that the Logistics Cluster office is open for organisations to come and inquire regarding any Logistics Cluster support that may be required in Rumbek.

2. Access Constraints Update

- The latest Access Constraints map can be found at the following link: http://www.logcluster.org/map/south-sudan-access-constraints-map-22-july-2016.

- Due to access/security constraints Juba to Rumbek via Mundri, organisations with approved Service Request Forms (SRFs) are advised to preposition cargo in Bor.
