1. Operational Update
- Two Mobile Storage Units (MSUs) were received from Juba on Monday 25 July, to provide common storage for humanitarian organisations operating in Wau.
- No cargo was received via overland transport for storage by the Logistics Cluster Wau this week.
- Spare capacity for air delivery is available and the Logistics Cluster will facilitate cargo flights to Wau, free-to-users, using the fixed wing aircraft. Organisations were informed to submit Service Request Forms (SRFs) to southsudan.clustercargo@wfp.org to access this service. Cargo will only be delivered ex Rumbek and Bor hubs.

2. Common Storage and Transport Services
- Installation of two MSUs (32 x 10m) for the Logistics Cluster and three MSUs (24 x 10 m) for IOM has been completed. Warrior Security (24h) has been in place since Wednesday 27 July.
- Due to insecurity in the areas outside of Wau town, the response in these areas is still suspended. Programme activities are on hold and as a result no cargo is moving out of the warehouse coordinated by the Logistics Cluster, reducing the current storage capacity.

3. Access Constraints
- The most recent Access Constraints map can be found using the following link: http://www.logcluster.org/map/south-sudan-access-constraints-map-22-july-2016

4. AOB

- The Committee to conduct the market survey is yet to be formed; humanitarian organisations in Wau are reminded to follow up with respective procurement focal points on this matter.
