LOCATION: UNMISS Base, Wau
DATE: 8 December 2016
CHAIR: Logistics Cluster Wau
PARTICIPANTS: International Medical Corps (IMC), UNICEF
ACTION POINTS:
- Logistics Cluster Wau to inform humanitarian organisations when future coordinated convoys to Wau will be organised.

AGENDA:
1. Operational Update
2. Requesting Logistics Cluster Common Services
3. Convoy Coordination
4. Access Constraints
5. AOB

1. Operational Update
- Logistics Cluster coordinated assets include: two MI8 helicopters (ex-Rumbek and ex-Bor) and one fixed-wing Buffalo aircraft (ex-Juba, Bor or Rumbek).
- As roads dry up, the Logistics Cluster encourages organisations to use road transportation. The Logistics Cluster will not airlift to destinations where the road is open, expect in the event of life saving interventions.

2. Requesting Logistics Cluster Common Services
- The Logistics Cluster supports organisations in Wau with shunting to and from the airport and inside Wau town.
- Two Mobile Storage Units (MSUs) are located at the WFP logistics base for common storage, with 240 m² of storage capacity currently available for humanitarian organisations.
- For support with road transportation, common storage, and support for charter flight reception, organisations need to email the Logistics Cluster Wau focal points two days in advance.

3. Convoy Coordination
- The Logistics Cluster is supporting convoy coordination to Wau.
- Organisations are responsible for obtaining clearances from Relief and Rehabilitation Commission (RRC) and Joint Verification Monitoring Mechanism (JVMM) to participate in the convoy.
- The Logistics Cluster is currently coordinating a convoy from Juba to Wau. Exact departure dates will be shared via the mailing list.
4. Access Constraints

- WFP has tested the roads between Juba and Wau - northern route via Terakeka and southern route via Mundri - both are open and passable.

- Organisations were reminded to report all non-physical access related incidents outside of Wau to OCHA using the incident reporting forms circulated by the Logistics Cluster.

- Organisations were requested to inform the Logistics Cluster of any physical access constraints for addition to the weekly Access Constraints map.

- The most recent Access Constraints map can be found using the following link: www.logcluster.org/map/south-sudan-access-constraints-map-16-december-2016

5. AOB

- The next Logistics Cluster coordination meeting in Wau will be held Thursday, 12 January 2017 at the UNMISS Raja Conference room at 15:30.
