COORDINATION & INFORMATION MANAGEMENT
In an effort to address common logistics gaps, minimise duplication of effort, and enhance operational decision-making, the Logistics Cluster holds regular coordination meetings in Gaziantep and Antakya, as well as collecting, analysing, and sharing critical information. In 2019, 44 meetings have been held across 6 locations in Syria, Turkey, Iraq and Lebanon.

COMMON SERVICES
Where identified gaps exist, the Logistics Cluster facilitates access to common logistics services. This includes cross-border transhipment operations, coordination of inter-agency convoys, commons transport, contingency fuel provision, and warehousing.

CAPACITY STRENGTHENING
To build operational expertise, promote collaboration, and strengthen the logistics capacity of organisations involved in the Whole of Syria response, the Logistics Cluster in Turkey supports capacity strengthening activities based on identified gaps and needs. In 2019, the cluster has trained 359 people across 13 trainings.

To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination and facilitates the transhipment of UN agencies' cargo being transported cross-border into Syria through UNSC-authorised border crossings.
