

Syria Operation Overview

April 2018

Highlights

- Over the month of April, WFP, as the lead of the Logistics Cluster, provided nine trucks to the Syrian Arab Red Crescent (SARC), to facilitate the transport of humanitarian commodities to the IDP sites. In addition, to facilitate loading and offloading operations at the main SARC warehouse in ADRA, 700 wooden pallets were provided.
- Free-to-user transport is made available to requesting humanitarian organisations to deliver assistance to the East Ghouta IDP sites.

Newly stored items by type (in m³)

Transport and Storage

- The Logistics Cluster coordinated the transport of 331.8 m³ of WASH items to East Ghouta on behalf of UNFPA.
- The Logistics Cluster facilitated the storage of 1,098 m³ of newly received humanitarian goods in its common storage facilities in Qamishli and Rural Damascus on behalf of ICRC, OXFAM, PU and UNFPA.

Coordination & Information Management

- The Logistics Cluster coordination meetings are regularly held in Damascus, Amman, Gaziantep and Antakya. Key humanitarian actors attend these meetings to discuss logistics bottlenecks and develop common solutions for an improved humanitarian response.
- Information Management products, including maps, situation reports, capacity assessments, infographics, and real-time flash logistics updates, are available on the dedicated Syria Logistics Cluster webpage: www.logcluster.org/ops/syr12a
- Supplier lists, transport and warehousing indicative price lists are available upon request.

Syria Operation Overview April 2018

Cross-border Operations

To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination for UN agencies' cargo being transported cross-border into Syria through UN Security Council Resolution-authorized border crossings. These cross-border activities are the key operational enablers of the UN Security Council Resolutions 2165/2191/2258/2332/2393. In Jordan, this involves coordinating convoys which are implemented by IOM. In Turkey, this involves facilitating transshipment points at the border for individual agencies to use when conducting their own cross-border transport.

In April, a transshipment of 13 trucks took place on the Iraqi-Syrian border through Al Yaroubia border crossing.
