

Highlights

- The Logistics Cluster, in close collaboration with the Syrian Arab Red Crescent (SARC), OCHA and UN agencies coordinated two Inter-Agency Humanitarian Convoys to hard-to-reach locations.
- The Logistics Cluster continues to provide information management and coordination for humanitarian trucks reaching Qamishli and Deir-ez-Zor by road and to facilitate free road transport for humanitarian organisations, situation on the ground permitting.

Transport and Storage

- In the framework of the Inter-Agency Humanitarian Convoys, a total of 1,301 m³ of much-needed humanitarian supplies including Education, Food, Health, Nutrition, Protection, and WASH items were transported to hard-to-reach locations in Homs Governorate on behalf of five organisations.
- 685 m³ of newly received humanitarian goods have been stored in the common storage facilities in Tartous, Qamishli and Rural Damascus on behalf of IMC, OXFAM, UNFPA, FAO and UNICEF.

Newly stored items by type (in m³)

Coordination & Information Management

- The Logistics Cluster coordination meetings are regularly held in Damascus, Aleppo, Amman, Gaziantep and Antakya. Key humanitarian actors attend these meetings to discuss logistics bottlenecks and develop common solutions for an improved humanitarian response.
- Information Management products, including maps, situation reports, capacity assessments, infographics, and real-time flash logistics updates, are available on the dedicated Syria Logistics Cluster webpage: www.logcluster.org/ops/syr12a
- Supplier lists, transport and warehousing indicative price lists are available upon request.

CROSS-BORDER OPERATIONS

To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination for UN agencies' cargo that is being transported cross-border into Syria through UN Security Council Resolution-authorized border crossings. These cross-border activities are the key operational enablers of the UN Security Council Resolutions 2165/2191/2258/2332. In Jordan, this involves coordinating convoys which are implemented by IOM. In Turkey, this involves facilitating transshipment points at the border for individual agencies to use when conducting their own cross-border transport.
