## Cross-border Operations

To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination for UN agencies' cargo being transported cross-border into Syria through UN Security Council Resolution-authorized border crossings. These cross-border activities are the key operational enablers of the UN Security Council Resolutions 2165/2191/2258/2332/2393. In Jordan, this involves coordinating convoys which are implemented by IOM. In Turkey, this involves facilitating transshipment points at the border for individual agencies to use when conducting their own cross-border transport.
