AGENDA:

1. Introduction and Situation Update
2. Shipping Update
3. Fuel Update
4. UNHAS Update
5. AoB

1. Introduction and Situation Update

- The Logistics Cluster advised that the challenges in terms of access constraints, the security situation, lack of fuel remain high in the country.

2. Shipping Update

- The Logistics Cluster provided an update on the vessel movement to Yemen. UNICEF advised that one vessel is expected to arrive in Aden with humanitarian relief cargo on 22 May.
- The Logistics Cluster advised that the vessel, made available by the Logistics Cluster and with WFP and UNICEF cargo is scheduled to leave during the week of 25 May to Aden.
- Two additional vessels are expected to arrive and start loading during the week of 25 May, with one including passenger transport and temperature controlled storage capacity.

3. Fuel Update

- Organisations were advised that 500,000 litres of fuel have been procured and are expected to depart from Djibouti to Hodeidah on 28 May. Additional fuel is being shipped from Dubai with an expected time of departure in the second week of June.
- From the last fuel consignment of 420,000 litres about 135,000 litres were distributed to 13 organisations in Hodeidah and 120,000 litres were transported from Hodeidah to Sana’a by the Logistics Cluster. The fuel...
distribution in Sana’a to organisations that had requested fuel is continuing. 165,000 litres of fuel are still scheduled for delivery from Hodeidah to Sana’a.

4. UNHAS update
- The first regular UNHAS flight from Amman to Sana’a is scheduled for 28 May, via Djibouti. The flight schedule will be shared, once available.

5. AoB
- The Regional Humanitarian Coordinator met with the humanitarian organisations in Amman. In discussion with participants, it was agreed that the Regional Humanitarian Coordinator will work with the Logistics Cluster on supply chain plans for upstream and downstream, including the main constraints.
- Participants were reminded that the Service Request Form (SRF) and all updates are published and available at: www.logcluster.org/ops/yem10a.
