**Yemen**

**2019 Overview**

**Coordination**
To address common logistics gaps, maximise the use of available resources in country and avoid duplication of efforts, the Logistics Cluster holds coordination meetings in Sana’a and Aden. In 2019, 20 meetings were held.

**Information Management**
To support operational decision-making and improve the efficiency of the humanitarian response, the Logistics Cluster produces, collects and shares logistics information. This year, the Cluster has published 131 IM updates, including 9 maps; and recorded 19,000 pageviews on operational documents.

**Common Services**
The Logistics Cluster provided a variety of transport services in 2019. Sea transport services - both for passengers and humanitarian cargo - and air transport services were provided between Djibouti and Yemen. Inland road transport services were facilitated in order for partner organisations to move cargo across the country. In addition, 75,750 m³ of partners' humanitarian relief items were received into common storage across four locations, Aden, Bajil, Hudaydah, Sana’a.

**Total Cargo by Means of Transport**
- **8% Sea**
- **5% Air**
- **9,681 MT**
- **87% Road**

**Total Cargo Stored by Sector**
- **4% Protection**
- **5% Other**
- **28% Wash**
- **13% Health**
- **16% Logistics**
- **25% Food Security**
- **75,750 m³**

**Sea Passenger Transport Highlights**
- **44 Voyages**
- **344 Passengers**
- **15 Organisations Supported**

**Total Cargo Transported by Air**
- **86%**

**Total Cargo Transported by Road**
- **19% Health**
- **14% Wash**
- **10% Shelter**
- **8% Logistics**
- **8% Health**
- **6% General Operations**
- **5% Other Operations**
