The Logistics Cluster coordinates and facilitates passenger movement between Djibouti and Aden on a WFP-chartered vessel, which is also used for emergency rescue and evacuation purposes. Accommodation and cargo transportation are also facilitated on the same vessel by the Logistics Cluster. Since May 2016, a regular schedule and booking system have been in place, with weekly rotations between Djibouti and Aden. The schedule allows passengers to easily connect with UNHAS flights between Djibouti and Sana’a.

**General overview**

- **69 rotations** with 1,650 passengers transported between Djibouti and Aden on behalf of 37 service users (14 UN agencies, 19 INGOs, 4 NNGOs).
- **48% average utilisation rate** (maximum capacity 25 passengers per leg/50 per voyage).
- Thanks to the contributions received by DFID, Canada, ECHO and Germany, WFP and the Logistics Cluster will be able to extend the service until the end of 2017.
