

Situation Overview

- The ceasefire has taken hold between 10 and 11 April, ahead of peace talks scheduled to start on 18 April in Kuwait. If the cessation of hostilities holds, humanitarian operations are expected to increase over the next weeks.
- The Logistics Cluster has identified a need to establish regular airlift services from Djibouti to Sana'a, in order to supply urgently needed relief items, which cannot be transported by sea due to the urgency or limited facilities (cold chain) of this sea service. The Logistics Cluster will therefore facilitate access to aircrafts on a regular monthly schedule.
