Currently, due to the inaccessibility of the city of Aden via air, the Logistics Cluster is facilitating access to passenger transport on a WFP-chartered vessel at no cost to user. The vessel will also serve as emergency rescue and evacuation in addition to urgently required humanitarian assessment missions endorsed and approved by the DO/HCT.

The Logistics Cluster informs, via the Yemen-logs mailing list, on each rotations for passenger sea transport, on space availability and on the duration of the voyage, four days before the planned departure. The booking form and the snapshot on how to access passenger transport are available at: [www.logcluster.org/ops/yem10a](http://www.logcluster.org/ops/yem10a)
