

## Standard Operating Procedures (SOPs) Transport, Temporary Storage, & Transit Services

12 December 2016

### OVERVIEW

This document provides an overview of the logistics services to be made available through the Logistics Cluster, how humanitarian actors responding to the crisis in the Republic of Yemen may access these services, and the conditions under which these services are to be provided.

The objective of these services is to enable responding organisations to establish an uninterrupted supply chain that supports the delivery of humanitarian relief items to the affected population. These services are not intended to replace the logistics capacities of other organisations, nor are they meant to compete with the commercial market. Rather, they are intended to fill identified gaps and provide a last resort option in case other service providers are not available.

These services are planned to be available until 31 December 2016, with the possibility of further extension. The services may be withdrawn before this date in part or in full, for any of the following reasons:

- Changes in the situation on the ground
- No longer an agreed upon/identified need
- Funding constraints

*This document will be updated, and services provided may change as the situation evolves and operational requirements develop. Updated versions will be shared on the Yemen operations page (<http://logcluster.org/ops/yem10a>) and shared via the mailing list.*

### KEY NOTES TO USERS

- Any communications, requests, and **all documentation** related to these services should be sent to: [Yemen.ClusterCargo@wfp.org](mailto:Yemen.ClusterCargo@wfp.org).
- Customs clearances required for Yemen will remain the responsibility of the Service Users in all cases.
- Customs clearance required for Djibouti will remain the responsibility of the Service Users, unless a specific request is made and “Accepted” to use the TRANSIT CUSTOMS PROCESSING SERVICE.
- Insurance for the cargo will remain the responsibility of the Service User in all cases.
- Implementation of all services is dependent on the security situation, this will affect schedules and access.
- Services will be provided in accordance with the priorities set by the Humanitarian Country Team. As a guiding principle, priority will be given to requests related to lifesaving and emergency response activities.
- Only UN Agencies, International Humanitarian Organisations, and International or National Non-Governmental Organisations (NGOs) operating in the Republic of Yemen are eligible to use these services (“Service Users”).
