OVERVIEW

This document provides an overview of the logistics services to be made available through the Logistics Sector, how humanitarian actors responding to the crisis in Ecuador may access these services, and the conditions under which these services are to be provided.

The objective of these services is to enable responding organisations to establish an uninterrupted supply chain that supports the delivery of humanitarian relief items to the affected population. These services are not intended to replace the logistics capacities of other organisations, nor are they meant to compete with the commercial market. Rather, these are intended to fill identified gaps and provide a last resort option in case other service providers are not available.

The logistics services are planned to be available until 20 July 2016. These services may be withdrawn before this date in part or in full, for any of the following reasons:

- Changes in the situation on the ground
- No longer an agreed upon/identified need
- Funding constraints

This document will be updated, and services provided may change as the situation evolves and operational requirements develop. Updated versions will be shared on the Ecuador Operations page (http://www.logcluster.org/ops/ecu16) and shared via the mailing list.

KEY NOTES TO USERS

I. Any communications, requests, and all documentation related to these services should be sent to: ecuador.logisticscargo@wfp.org.

II. There should only be one SRF per location of origin/storage location.

III. Cargo requiring special handling must have its own SRF form. This is to ensure clarity in exactly which cargo requires specialized handling.

IV. Insurance for the cargo will remain the responsibility of the Service User in all cases.

V. Services will be provided in accordance with the priorities set by the Humanitarian Country Team. As a guiding principle, priority will be given to requests related to lifesaving and emergency response activities.

VI. Only UN Agencies, International Humanitarian Organisations, and International or National Non-Governmental Organisations (NGOs) operating in Ecuador are eligible to use these services ("Service Users").
OVERVIEW OF SERVICES

ECUADOR
- Service provided by the Logistics Sector: Temporary Storage, Coordination, Information Management, and GIS

TEMPORARY STORAGE SERVICES

- The Logistics Sector is making warehouse space available - on a free-to-user basis - to humanitarian organizations for cargo storage (including handling in/out). Currently warehouse space is available in:
  1. **Pedernales** (total space available: 560 m²)
     Centro Logístico Pedernales
     Address: Area Colegio Tecnico, ruta del Spondylus, frente al helipuerto
     (GPS Coord: 0.066736, -80.053785)
  2. **Manta** (total space available: 640 m²)
     Centro Logístico Manta
     Address: Coliseo Toali, Vía San Mateo, Manta
     (GPS Coord: -0.959295, -80.766255)
  3. **Quito** (total space available: 3,200m²)
     Centro Logístico de Asistencia Aumanitaria (CELAH)
     Address: Av. Pacho Salas, Tumbaco
     (GPS Coord: -0.218392, -78.412822)

1. Temporary storage will be provided, subject to availability, in a common area to humanitarian organizations.
2. All storage space provided is temporary up to 10-15 days depending on availability. The storage space available and the time it is made available may change according to level of usage.
3. Service Users should check availability of storage at a minimum of 48 hours in advance by sending an email to ecuador.logisticscargo@wfp.org.
4. Service Users are responsible for ensuring the removal of their cargo within 10-15 days.
5. In the event that additional time is required for storage usage, the Service User must inform the Logistics Sector of such requirements prior to the specified date agreed upon.

**NOTE: Additional storage time will be subject to availability and at the discretion of the Logistics Sector.**

HOW TO ACCESS THE TEMPORARY STORAGE SERVICES

- Service Users are required to submit a completed Logistics Sector Service Request Form (SRF), SRF must be sent in a Microsoft Excel file copy, from an approved agency contact point to: ecuador.logisticscargo@wfp.org, emails sent from a known user will be considered as being signed by the sending agency. SRF must be submitted a minimum of 48 hours before they expect to have the cargo ready to deliver to the storage facility.
- A single SRF for the Temporary Storage Service can have only:
  o One location where the cargo will be handed over for service(s) to begin (in the “FROM” field)
  o One date when cargo will be handed over for service(s) to begin (in the “Date Ready for Movement” field)
  o One location where the cargo will be handed back when service(s) end (in the “TO” field)

[http://www.logcluster.org/ops/ecu16]
NOTE: General instructions for completing the SRF can be found at: http://www.logcluster.org/ops/ecu16

- All Service Users should provide their organisations PO Number(s) or any other internal Reference Number for the cargo (in the “Owner Reference” field) to facilitate tracking of their goods.

- Service Users requesting collection of their cargo from the warehouse of their Clearing and/or Forwarding Agent are asked to provide contact details for their agent on the SRF in the “Clearing Agent” fields (including: agent/company name, telephone number, contact name, and e-mail address).

- All Service Users are required to submit copies of a Packing List and/or a Non-Commercial Invoice with the SRF.

- The Logistics Sector will confirm receipt of the SRF within 24 hours, and will either: request additional clarification or documentation required; or, will register the SRF as “New” in status and will return a Consignment Report with a 9-digit Tracking Code to the Service User.

  NOTE: At this point no commitment has been made to provide the service as requested.

- The Logistics Sector will review all “New” SRFs within 24 hours, and will either: request additional clarification or documentation; will “Accept” the SRF; or will communicate the reason why the service cannot be provided at this time and give the Service User the option to “Cancel” or place the SRF “On-Hold”.

- After receiving confirmation from the Logistics Sector the request has been accepted, the requesting organization should inform the Logistics Sector of the estimated date and time of the cargo arrival at the warehouse. The requestor should also provide contact details of the truck driver/convoy leader to the Logistics Sector contact person to enable the trucks with cargo to be guided to the Logistics Sector’s warehouse.

- The requesting organization should also provide the Logistics Sector with the waybill numbers (and if possible copies of the waybills) for the consignment, as well as the plate numbers of the trucks on which it will be delivered. This will enable the Logistics Sector to easily identify the arriving cargo.

- Requesting organizations will bring their cargo to the Logistics Sector warehouse at their own cost. Offloading and handling-in will be arranged by the Logistics Sector.

- The Logistics Sector will confirm receipt of the cargo in the warehouse by updating the cargo tracking system.

- Cargo will not be released from the warehouse unless the Logistics Sector either receives a signed Release Order Form (RLO) from the consignor organization or a scanned copy attached to email from a known agency contact or implementing partner.

  The release request should indicate Consignment Number, number of units, volume and tonnage of the cargo to be released, and should specify to whom the cargo should be made available. The Logistics Sector will arrange handling-out and will confirm release of the cargo to the receiving organization.

- All enquiries on the status of cargo should be checked online using the tracking number: http://rita.logcluster.org/rita2/public/track.htm

- Further inquiries regarding the consignment information should be sent to: ecuador.logisticscargo@wfp.org

The above process is summarized in the flowchart in Annex 1.
ANNEX 1

Storage Flowchart

A simplified summary of the usual steps involved in storage services is given in the flow chart below (can be modified and adapted to a specific operation):

1. The Service User submits a ‘Service Request Form’ (SRF) with an authorised signature and an attached packing list to the dedicated Logistics Sector address ecuador.logisticscargo@wfp.org.

2. The Logistics Sector acknowledges receipt of the SRF and may contact Service User to resolve any queries related to it.

3. The Logistics Sector contacts the Service User to notify if the request has been accepted for further processing. The requesting organization will be informed about where, when, and for how long the cargo will be stored and issued a consignment details report (including a cargo tracking number).

4. The Service User confirms to the Logistics Sector the estimated date and time of cargo arrival and contact details of the truck driver /convoy leader.

5. The responsibility lies with the Service User to bring the cargo to the warehouse.

6. Logistics Sector will arrange handling. The cargo is stored for an agreed period of time.

7. When cargo is to be released out of the warehouse the requesting agency must authorize Logistics Sector to release the cargo from the warehouse (using the Release Order Form).

8. Upon goods reception, Service User confirms receipt through signing the waybill.

LIMITATIONS AND CONDITIONS OF SERVICES

- Only UN Agencies, International Humanitarian Organisations, and International or National Non-Governmental Organisations (NGOs) operating in ECUADOR are eligible to use these services (“Service Users”).
- When providing services under these SOPs, WFP acts as agent for the service users/ requesting organisations. WFP assumes no responsibility for storage and/or any loss or damage to the goods carried. The service users are responsible for making adequate arrangements for the insurance of their goods. WFP undertakes the services in good faith and will ensure that the services are carried out with due diligence.
- Requests are subject to the availability of resources and will be handled as per the priorities set by the Humanitarian Country Team.
- The contact for ECUADOR inquiries related to Temporary Storage services is: ecuador.logisticscargo@wfp.org.

CARGO PACKING REQUIREMENTS

- Requesting organizations are responsible for ensuring their items have been packed in the appropriate transport container and able to handle the physical requirements of the operational transport. The Logistics Sector reserves the right to refuse cargo that has not been properly packed, as improper packing can lead to reduced space for other organizations.
- Organisations delivering relief cargo to the logistics hubs for temporary storage need to provide full details of the consignment and necessary documentation as detailed in the specific in-country SOPs.

LARGE AND OVERSIZED ITEMS

- Large, long, over-sized etc. items will be handled according to available capacity.

HAZARDOUS GOODS AND TEMPERATURE-CONTROLLED ITEMS

- In general, the Logistics Sector does not usually offer temperature controlled storage. However, requests would be considered on a case by case basis with organisations who have signed a Service Level Agreement with WFP for the provision of such specific logistics services in country.
