SYRIA OPERATION OVERVIEW
JULY – SEPTEMBER 2020

BACKGROUND

The WFP-led Logistics Cluster was activated in Syria in January 2013, in order to facilitate access to crucial logistics services across the region, including surface and air transportation, warehousing, contingency fuel provision and cross-border transshipment services.

In September 2014, the Whole of Syria (WoS) approach was adopted as a result of the UN Security Council Resolution (UNSC) 2135, bringing together regional, separate operations into a single framework.

CROSS-BORDER OPERATIONS

To meet the need for support in accessing vulnerable populations and prepositioning relief supplies, the Logistics Cluster provides coordination and facilitates the transshipment of UN agencies’ cargo being transported cross-border into Syria through UNSCR authorised border crossings.

*BaS figures only represent operations in July, as this border crossing was not renewed under UNSCR 2533 after July 2020
