SYRIA OPERATION OVERVIEW
AUGUST 2020

BACKGROUND
The WFP-led Logistics Cluster was activated in Syria in January 2013, in order to facilitate access to crucial logistics services across the region, including surface and air transportation, warehousing, contingency/fuel provision and cross-border transit services.

In September 2014, the Whole of Syria (WoS) approach was adopted as a result of the UN Security Council Resolution (UNSC) 2165, bringing together regional separate operations into a single framework.
