The map shows access constraints in Sulawesi as of 29th October 2018. Key points include:

- **Travel time Palu - Mamuju**: Travel time is currently 13 hours due to poor road conditions.
- **Travel time by Sea Balikpapan - Palu**: Approximately 20 hours.
- **Travel time Makassar – Palu**: Approximately 30 hours.
- **Palu - Lende**: Accessible to all vehicles but susceptible to congestion due to landslides along the route.
- **Palu - Oil**: Accessible to 5 mt trucks. There is damage to bridges and some landslides along the route but it is still passable.
- **Tompe**: Accessible for 5 mt trucks, though the road is narrow.
- **Walandano – Malei**: Road is blocked 10km from Walandano in the direction of Malei.
- **Pantoloan**: Commercial operations have resumed. Currently accessible only to RO/RO, ferries and general cargo ships with onboard cranes due to collapse of quay crane.
- **Mutia**: Sustained damage, usable runway length now 2,000m. Operations returning to normal.
- **Travel time Palu - Poso**: Travel time is 6 hours. There is the risk of landslides along this route.
