The road from Chikwawa to Mwanza is reported to be accessible by 4x4 (max 5 mt capacity). Three bridges have collapsed at road intersections with Phwadi River, Kubalalika River and Mwanza River however, water levels are low and the road is passable. (Source: WFP)

Access challenges have been reported to reach Sekeni School (-16.2821, 34.8736). (Source: IOM)

The road to Nambuza is reported accessible by 4x4 (Source: Malawi Red Cross)

Challenges have been reported reaching Malambwe School (-15.5004, 35.6371), Dindi School (-15.5819, 35.7588) and Phaloni School (-15.6231, 35.7511) in Phalome. (Source: UNICEF)

Mazongosa (-16.3062, 34.9592) is only accessible by air and boat. Please note, the road that leads towards the base for Mazongosa boat operations from the M1 highway (coordinates: -16.573, 35.119), is currently only accessible with 4x4 vehicles (5 mt capacity). (Source: WFP)

East Bank Road is now reported to be accessible with 4x4 vehicles up to Ruo River (coordinates: -16.484, 35.178), however road conditions remain challenging. (Source: WFP)

Makhang (16.5192, 35.1791), Chigwamafum (-16.3113, 35.1024) and Chikali in TA Molo are only accessible by air and boat. Please note, once items arrive, limited road transport capacity to communities on the eastern side of the Shire River remains a challenge for the delivery of items. (Source: WFP)
