

NEPAL NATIONAL LOGISTICS CLUSTER COMMON SERVICE

7-MONTH SITUATION REPORT FOR COVID-19 RESPONSE

19 NOVEMBER 2020

COVID-19 and a 120-day national lockdown (March 24th - July 22nd) plus a second 22-day lockdown in Kathmandu valley (Aug 19th - Sept 10th) caused disruptions to national and international transport systems, affecting the ability of government and humanitarian workers to respond. Although the lockdown was partially lifted, a significant rise in COVID cases since July resulted in local movement restriction orders and limited humanitarian staff movements. The Nepal National Logistics cluster is working closely with the COVID-19 Crisis Management Center (CCMC), Ministry of Health and Population, the UN system and I/NGO community, providing supply chain services where commercial capacity has been disrupted, ensuring that critical health and humanitarian staff and cargo can move to where they are needed most. This report covers 7 months from April 20th until November 19th, 2020. In the 7th month (between 20th October – 19th November), 538 m³ medical supplies and NFIs of the Government and humanitarian agencies were transported to the province capitals and district headquarters. Similarly, 41 m³ medical supplies of GIZ was received at the Humanitarian Staging Area (HSA) in Kathmandu.

HEALTH AND HUMANITARIAN CARGO TRANSPORT

5,150 M³ of critical medical supplies & NFIs transported

192 truckloads of 3 – 21 MT trucks dispatched to province capitals to district HQs

24 user organizations supported with transport

62 M³ of critical medical supplies delivered to Nepal by WFP flights

1 M³ EQUALS

32,500 surgical masks, or

1,800 face shields or

1,650 safety goggles

30,000 gloves

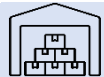

52 destinations reached

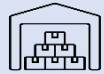

198 requests completed

HEALTH AND HUMANITARIAN CARGO STORAGE

2,560 M² of storage space provided at Humanitarian Staging Areas in Kathmandu, Nepalgunj and Dhangadhi

1,032 M³ of critical medical supplies stored for GoN and humanitarian agencies at the Humanitarian Staging Areas in Kathmandu, Nepalgunj and Dhangadi.

4 Mobile Storage Units with storage capacity of **1,280 M²**, provided to Covid-19 Crisis Management Center

INFORMATIONAL MANAGEMENT & COORDINATION

Bi-weekly Logistics Cluster meetings, with participants from 39 organisations, were held since the start of the emergency to coordinate support provided by humanitarian agencies and resolve logistics gaps and issues. A logistics task force with Ministry of Health and Population's Management Division, Nepali Army and the COVID-19 Crisis Management Center to coordinate storage and transport of COVID-19 supplies has not met since September, because Management division was still planning procurement. WFP air operations to Nepal started June 3rd and stopped Sept 9th because international commercial flights resumed on Sept 1st. In October a logistics cluster user satisfaction survey was conducted of which the results will be reported in a Gaps and Needs analysis in the end of November.

13 National Logistics Cluster meetings held, **39** user organizations attended the meetings

9 Passenger flights from Kuala Lumpur-Kathmandu-Kuala Lumpur, **441** passengers transported of UN agencies, INGOs and Embassies. (**232** outbound and **209** inbound passengers)

45 flights, the information shared for cargo consolidation

22 IM products published (Minutes, SOPs, Access Constraints Maps, Situation update, Reports)

Total					183.08	1,032.85

The National Logistics Cluster has activated the three existing Humanitarian Staging Areas to facilitate cargo storage and transport free-of-cost to users for the Government and all humanitarian organizations, using logistics preparedness capacity established by the UKAid funded EPR-project. All three staging areas – in Kathmandu, Nepalgunj and Dhangadhi - are equipped to handle humanitarian and medical items and are linked to road and air transport services.

Four Mobile Storage Units (MSU's, 10x32m size) were loaned to the CCMC of which two were erected at Nepal Army No.14 Engineering Brigade at Tribhuvan Airport to expand storage capacity for a large quantity of COVID-19 medical supplies, and one at the Tribhuvan airport terminal to provide extra capacity to process arriving passengers while maintaining social distancing. The logistics task force is coordinating with Management Division to plan for arrival and temporary storage of COVID-19 supplies under procurement and agree secondary storage facilities to be utilised at provincial level in Province 1, 2 and Bagmati province.

Provincial level Storage capacity:

Province	Primary Preposition Store	Secondary Store
1	Inaruwa (Provincial Government)	Itahari (FMTC)
2	Janakpur (FMTC)	Pathlaiya (MD)
3	Hetauda (Provincial Government)	FMTC Emergency Store
4	Pokhara (Provincial Government)	
5	Nepalgunj HSA (WFP)	Butwal Medical store (MD)
6	Surkhet (FMTC)	
7	Dhangadhi HSA (WFP)	Dhangadhi (Provincial Government)

Coordination

Two new logistics cluster provincial focal points were appointed from begin September to support Province 1 and 2, bringing the total logistics cluster provincial focal points to 8, one in each province except province 5 with 2 focal points.

A logistics cluster gaps and needs analysis is being conducted to determine the current logistics gaps and need for logistics common services. The results will be shared together with the results of a user satisfaction survey in the Logistics Cluster meeting scheduled for 27th of November and discussed with logistics cluster members to agree on the way forward and a possible phase out strategy of the common services.

Planned activities

- Transport medical items and NFIs of the Government and humanitarian agencies to the Provinces.
- Share the results of the Gaps and Needs Analysis and User Satisfaction Survey.
- Continue to provide common transport & storage services until end of November. Consider extension based on a Logistics Cluster Gaps and Needs Analysis, COVID-19 developments and inputs from Logistics Cluster members.
