American Samoa

State of Emergency is extended until 21 March 2021. Color-coded system to guide response. Current level is Code Blue. All entry permits suspended until further notice. All travelers must provide negative COVID-19 test results within 72 hours before arrival and are subject to full quarantine of 14 days. Moreover, the traveler is required to disclose if he/she had a positive result prior to testing negative.

Cargo flights into the Territory to deliver or retrieve cargo or mail will be allowed, provided that each occupant of the plane must furnish proof to the Director of Health of a negative COVID-19 test results within 72 hours before arrival, and further provide the eliminate all without prior written approval of the Governor.

Australia

Before you travel to Australia, you should complete the Australia Travel Declaration at least 72 hours before your departure for Australia. This applies to the following travelers entering Australia:

- Australian citizens and permanent residents, people who are automatically exempt from the travel restrictions and people who have been granted an individual exemption to the current travel restrictions.
- Travelers who do not need to complete the Australia Travel Declaration include: flight crew, Australian accredited foreign diplomats and people traveling on military flights.

If you are travelling to or transiting through Australia you must provide evidence of a negative COVID-19 (PCR) test to your airline, taken 72 hours or less before your scheduled departure. If you do not have evidence of a negative COVID-19 (PCR) test, you should not go to the airport as your airline will not allow you to board the aircraft. Masks must be worn on all international flights, including at airports. You are automatically exempt from the travel restrictions and can enter Australia without obtaining an individual exemption. If you are an Australian permanent resident, a diplomat accredited to Australia, a diplomat accredited to a foreign country, a person who has been in New Zealand for 14 days or more, and is immediately prior to arrival by air in Australia, a person on board a cruise ship, a person in a ship on the high seas, a person on a ship on the high seas, a person on a ship on the high seas, a person on a ship on the high seas, or a person on a ship on the high seas, you must provide proof of your residence status (such as your marriage certificate, evidence of your de facto relationship such as documents or property, your birth certificate or birth certificate for your children) to the Department before you travel to Australia. Do not travel until you have been advised otherwise by the Department.

You must carry evidence that you meet one of the above categories when travelling. Additional evidence may be required.

Commonwealth of Northern Mariana Islands

All passengers who are travelling into Japan (regardless of point of origin) must quarantine for a minimum of 5 - 7 days at their designated government quarantine facility. Currently, COVID-19 vaccination prior to entering CMR does not influence quarantine process and assessment. Upon arrival at their designated government quarantine facility, all travelers are required to undergo 14 days quarantine. In addition, all travelers are required to test a second time on the 5th day after their arrival date. If 10th day testing returns negative, individuals may be released from the designated government quarantine facility.

Cook Islands

Effective from 11.59pm Saturday 6th March 2021 (CST), the following persons are exempted for entry into the Cook Islands, provided they additionally meet the entry criteria specified below:

- Cook Islanders (as verified via Cook Islands Status stamp), Permanent Residents of the Cook Islands, Cook Islands work permit holders and Cook Islands resident permit holders. The above must have spent the last 14 days in New Zealand and/or the Cook Islands, prior to entry into the Cook Islands. Clinical/medical criteria to be administered by Te Marae Ora Ministry of Health prior to departure from New Zealand. New Zealand provided a negative COVID-19 test result within 72 hours prior to departure from New Zealand. New Zealand provided a negative COVID-19 test result within 72 hours prior to departure from New Zealand. New Zealand provided a negative COVID-19 test result within 72 hours prior to departure from New Zealand.

- All requests for entry into the Cook Islands must be sought from the Ministry of Foreign Affairs and Immigration (Te Kauono Tutara e te Mana Tiaki) on email: immigration2@cookislands.gov.ck.

- As of Wednesday, 3rd February 2021, travel is authorised after the completion of the 14-day government-mandated quarantine period. Effective from 19th February 2021, after a 3-day quarantine period, travelers aged 11 and over who travel to French Polynesia by air are subject to the following mandatory conditions:

  - Proof of a negative RT-PCR test (any RT-PCR test listed on this FDA site is allowed) carried out within three days prior to their international air departure. If the result is not obtained in due time, a certificate of completion of the RT-PCR test must be presented to the airline company, together with a negative result to an antigen test performed on the day of boarding. Any antigen test listed on this FDA site is acceptable for the same day test. In the event the RT-PCR test result was not received, self-tests are not accepted.

  - Present the receipt of the health registration from the Etis pf platform (Electronic Travel Information System).

  - Present the certificate of derogatory travel and the declaration on honour completed and signed.

Guam

Executive Order 2021-04 declares Pandemic Condition of Readiness 3 in Guam. All travelers who are travelling into Guam are subject to the following mandatory conditions:

- Cargo flights into the Territory to deliver or retrieve cargo or mail will be allowed, provided that each occupant of the plane must furnish proof to the Director of Health of a negative COVID-19 test results within 72 hours before arrival, and further provide the eliminate all without prior written approval of the Governor.

- Cargo flights into the Territory to deliver or retrieve cargo or mail will be allowed, provided that each occupant of the plane must furnish proof to the Director of Health of a negative COVID-19 test results within 72 hours before arrival, and further provide the eliminate all without prior written approval of the Governor.

Hawaii

Governor Ige issued the eighteenth supplemental proclamation, which includes mention of an anticipated new exception for vaccinated travelers who will become effective once approval by the director of the Hawaii Emergency Management Agency. This exception is not available as of today.

As of Wednesday, 3rd February 2021, travel is authorised after the completion of the 14-day government-mandated quarantine period. Effective from 19th February 2021, after a 3-day quarantine period, travelers aged 11 and over who travel to French Polynesia by air are subject to the following mandatory conditions:

- Proof of a negative RT-PCR test (any RT-PCR test listed on this FDA site is allowed) carried out within three days prior to their international air departure. If the result is not obtained in due time, a certificate of completion of the RT-PCR test must be presented to the airline company, together with a negative result to an antigen test performed on the day of boarding. Any antigen test listed on this FDA site is acceptable for the same day test. In the event the RT-PCR test result was not received, self-tests are not accepted.

- Present the receipt of the health registration from the Etis pf platform (Electronic Travel Information System).

- Present the certificate of derogatory travel and the declaration on honour completed and signed.
