Transport Plan as of 03 January 2023

South Sudan

All river transport is provided through WFP's Bilateral Service Provision (BSP) and the Logistics Cluster, as a coordination body, facilitates this service. Organizations are not obliged to use BSP and can contact commercial river transport services directly. Please contact the Logistics Cluster for more information.

The Logistics Cluster covers 50% of the total cost of river movement for all international NGOs and UN Agencies. For national NGOs, the Logistics Cluster endeavors to cover all associated river transportation costs, to be determined on a case-by-case basis.

Destinations reachable by river can be found here.
