3. Logistics Update – North-West Syria

North-West Syria (NWS):

- Cross border operations: 90 trucks crossed from Türkiye to NWS in the period between 16 and 23 May
    - Bab al-Hawa: 74 trucks
    - Bab al-Salam: 13 trucks
    - Al Ra'ee: 3 trucks
- Myron Kamensa's contract has ended and Christian Kachibi has joined as the temporary coordinator.
- A partner asked if the Logistics Cluster will still be available to support organisations if the security council resolution expires on 10 July.
    - If it does expire, the Logistics Cluster will continue working with organisations at other border locations as long as they are open, currently until 13 August.
    - Discussions with organisations on possible alternatives if the resolution is not extended will start in June.

- There is no connection between the security resolution and the other two border crossings, so they will not be impacted by the extension.

- It was noted that the number of trucks crossing last week and this week have been low. Previous years have had 350-400 trucks for transhipment leading up to the expiry date. There were no focal points from UN Agencies available for comment on the decrease.
