AIRBUS FOUNDATION

Overview

The Airbus Foundation provides access to Airbus' unique portfolio of high-tech products, services and know-how to help address some of the world's most pressing problems, contributing to sustainable solutions for a safe and united world.

HUMANITARIAN RESPONSE

Supporting the work of disaster relief and emergency responders through use of Airbus products, services and people.

YOUTH DEVELOPMENT

Inspiring children to develop themselves and to encourage a desire to learn more through the world of aerospace.

ENVIRONMENT

Supporting non-profit organisations in their climate change and nature conservation strategies.

"We're focused on 3 strategic pillars, partnering with Global NGOs and organisations."

What we do
Humanitarian Response

What we do
Environment

Environment

Climate change mitigation and monitoring

Support the impact assessment and evolution of climate change, monitor the restoration of nature and biodiversity.

Climate change adaptation and disaster prevention

Support the assessment of areas prone to natural disasters, **support the preparedness and capacity building** of vulnerable environments and societies, going hand in hand with the Foundation humanitarian activities.

Minimising the environmental impact of humans

Improve and monitor resource management.

Environment Partners
First partnerships

Partner since July 2021
