NON-FOOD ITEMS & EMERGENCY SHELTER SECTOR

Response to New Displacements

19 October 2009

Darfur

NORTH DARFUR

►Background

Displacements in late June were reported in Dar Zagawa and Umm Baru; however, assessments have not been possible due to insecurity. A joint assessment to Umm Baru was carried out on 14 October, identifying returnees from Chad but no needs as a result of displacement. An assessment to Dar Zagawa is still pending security clearance from UNDSS and local GoS authority.

On 24 September, new displacements were reported as a result of fighting in Korma. Sector partners assessed Korma and found that affected households were returning to their places of origin; however, a follow-up mission will be scheduled.

On 29 September, conflict in Maw reportedly displaced populations within the Locality. GAA is leading the assessment to identify non-food items and emergency shelter needs.

As NFI & ES Sector Lead, UNJLC is coordinating Sector support for all newly-displaced households as required.

JONGLEI

►Background

In Akobo, 2,461 households displaced due to conflict were reported in July. Further inter-tribal conflict occurred on 2 August. A rapid assessment by OCHA's Emergency Preparedness and Response Team (EP&R) identified plastic sheeting and mosquito nets as the most pressing needs. Nile Hope Development Forum (NHDF), the NFI & ES Sector partner on the ground in Akobo, is coordinating response to support the affected households with essential non-food and emergency shelter items.

Fighting in Le-Kuangole Payam in March displaced 7,500 people to Pibor, where there was also an outbreak of cholera.

As of 28 August, in Liith Payam in Twic East County, inter-tribal conflict displaced populations to Panyagor. The number of people affected has not yet been established; however UNICEF and CRS are following up with an assessment.

Additionally, on 19 September, inter-tribal conflict in Duk Padiet displaced populations.
