***PARTNERS SUPPORTED WITH LOGISTIC SERVICES**: Africa CDC, Alima, DPS, EDS, ICRC, IMC, INRB, NRC, OXFARM, Save the Children, UNICEF, WFP , WHO.*

Operational Challenges

- In newly affected and shifting response locations, warehousing and logistics infrastructure remain limited. Assessment is underway, and logistics hubs will be established to address these gaps..
- Persistent insecurity and changing access conditions require logistics partners to continuously adapt operational plans, thereby increasing both the complexity and the cost of operations.
